Index to INTECH, Vol 35, 1988

PUBLISHED ARTICLES

Page	Title	Author
	January	
9	Control Industry Outlook: Begin With The Basics	W J Maczka
14	Industrial Valve Sales Flat in 1988	INTECH Staff
27	Woody's Performance Review: What's Inline Next for pH Control?	G K McMillan
31	Control Valve Actuators: Types and Application	A B Scott
37	The Need For Pneumatic Power Signals For Control Valves	H D Baumann
43	High Pressure Modulating Solenoid Valve for Steam/Gas Service	V Liantonio
47	Pressure Scanning: Rotary vs Electronic	A Pemberton
53	Valve/Actuator Roundup	INTECH Staff
59	Sensor Applications	R Waterbury
63	Interfacing Sensors to Programmable Controls	N Infelise
	February	
9	Digital Panel Meters Get Smarter, Smaller	H H Weiss
27	Golden Handshake—Good Deal or Goodbye?	V L Abrahamson
37	Hydrostatic Tank Gauging: What It Is, Where It's Used, What's Available	C Robinson
39	Tank Gauging Survey Results	INTECH Staff
43	Anatomy of an Automated Pipeline	R H Kind
49	Pipeline Microprocessor Control	W J Williams, P J Murray
55	Understanding Digital Panel Meter Specifications	F Bosseloo
	March	
9	Control Applications	INTECH Staff
12	IPC '88 Sneak Previews	INTECH Staff
31	MAP for the Process Industries: Winners and Losers	D Whitehouse
35	Trends in LANs for Plant Automation	K Hughes
41	Using Sound Intensity in Troubleshooting	D L Strebe
45	Reducing Operator Error in Distributed Control Systems	J A Shaw
51	Calculating Back Pressure in Relief Valves and Piping	T Theisen
57	Fundamentals of Microprocessor-Based Design—Part III	M R Johnson
	April	
19	A Control Products Mart to Gladden the Heart	C Robinson
22	Data Logger Market Continues to Grow	INTECH Staff
39	Synthetic Skills in Process Control Education	W J Maczka
43	Programmable Motion Control Penetrates Process Industries	G Amato
49	Counters Cut Productivity Plunge	INTECH Staff
51	Graphic Recorders Track Changing User Needs	R Chapek
57	Timers & Counters Tie Monitoring to Diagnostics	J P Gaglio
61	Timers & Counters Roundup	INTECH Staff
	May	
7	President's Winter Meeting Report Sets the Stage For Summer Meeting	W J Maczka
12	PCs Halve Wastewater Treatment Cost	R Neustedter
27	Color Graphics, A Piece of Cake!	R Binckley
31	The Stepped Approach to Plant Automation	J Camilleri
35	SCADA System Simplifies Complex Water Treatment	A LaChance, W C Lauer
39	Chlorine Analyzers Cut Costs, Improve Performance	K Clark
43	Alarm Messages in Process Control	M M Danchak
49	Re-Instrumenting on a Tight Budget	T R Lytle
53	AI Enhances On-Line Fault Diagnosis	D A Rowan
	June	
9	Large Composter Relies on PLC	INTECH Staff
10	Measuring NH_3 in Foul Water	I T Nelson
27	In Search of the Ideal DCS	M F Wilson
31	Blatz Blends Old World Process With New World Technology	W J Maczka
35	Why and How to Buy a Steam Flowmeter: A User's Approach	D W Spitzer
39	Selecting Vortex Meters for Liquid Service	B Gotthardt
42	Fiber Optics Fill Role in Process Control	L D Goettsche
47	PC Software Tunes Plant Startup	J Howell, D Rost, J Gerry
	July	
23	Productivity: Partnering with a Capital "P"	A L French
27	PCs Expand Role in Process Control	P Murphy
37	Picking the Perfect Pressure Transducer	S A Loth
41	Introducing Digitally Integrated Measurement	R Dallimonti
45	Industrial Workstations: Protecting Your PC on the Plant Floor	P Kaszycki, R Tomasetta
47	These Bubbles Won't Pop	C Robinson
57	The S&P Department—To Be or Not To Be	W Calder III
	August	
9	Controlling Bulk Materials in Batch Processing	INTECH Staff
10	Integrated Automation: How One Company Spells Success	INTECH Staff
12	Continuous Monitoring Protects Burner Tips	INTECH Staff
25	Risk Analysis—Whose Responsibility Is It?	A E Nisenfeld
39	Software Offers Control Flexibility	R C Waterbury
44	Infrared Use Heats Up in Temperature Control	W J Maczka
47	Achieving High-Availability Batch Control	L Lengyel
49	Applying Radiation Thermometers to Process and Lab Measurements	A S Tenney III
	September	
9	Automatic Tuning Simplifies Process Control	V A Price
18	Pinch Valves Offer Wastewater Alternative	C Raftis
20	Oxygen Analyzer Fires Combustion Monitoring	INTECH Staff
26	Changeable PLCs Enhance Flexibility	INTECH Staff
93	Promote Registration for Control System Engineers	T Stout
97	Pilot Process Migrates to Production	R Wagner, K Bowles
103	Enhancing DCS For Simulation Training	T Shinoda, E Tose, M Takahashi
106	High-Capability Single-Station Controllers: A Survey	H L Wade
117	PC-Based Architecture Guides Process Control	J C Yingst
123	Process Tuning: A Logical Approach	P S Bickford
129	Making the DCS Decision With Single- and Multi-Loop Control	P Murray, T Craig
133	Process Analyzers—The Early Years	W V Dailey, T K McMahon
135	ISA/88—Control Challenges: Training and Technology	W J Maczka
	October	
21	Nonincendive: Nonsense or Noteworthy?	R C Masek
26	INTECH & Industry: 20 Seconds into the Future	W J Maczka
28	Developing Strategies for Successful Integration	W J Maczka
33	System Integration Issues	C Rodie
52	Distributed Control Optimizes Wastewater Reuse	O Carden
56	Software Standardizes Signal Scaling	W Messer, S Crawford
61	Calibration Ensures Accurate Temperature Measurement/Control	P E Langan, D S Ironside
87	Retrofit Pressure Transmitter Goes Digital	INTECH Staff
88	Textile Plant Filters Out Control Problems	INTECH Staff
91	Pulsation Damper Solves Analyzer Problem	J W Montgomery
117	Challenge Key to Control Career	W J Maczka
130	Deck the Halls With Laser Light	R C Waterbury
	November	
21	What If The Starship Extrapnze Had a DCS?	G K McMillan
24	Running Process Plants by the Seat of Your Pants	W J Maczka
26	Ghirardelli Sweet on PLC Quality, Productivity Improvements	INTECH Staff
30	NIR Analysis Improves Process Control	INTECH Staff
34	Strategies for Successful System Integration	W J Maczka
36	Dinosaurs to Dynamics	C Rodie
41	Man to Machine Interfaces: It's Time for a Systems Approach	J Vierling
44	Firing Multifuel Burner Systems Economically	J M Lowe II
46	Pressure Sensing: A Practical Primer	J D Lewis
49	A Power Supply for Safety Systems	M F Wilson
82	Mini-Monitor Keys Miniaturization	R C Waterbury
	December	
17	Integrate People & Progress To Peak Productivity	W J Maczka
18	A PLC-Based Offshore Platform Shutdown System	J Thibodeaux
22	Expert Systems Extend Expertise	R C Waterbury
28	Automated I/O Tester Simplifies System Debugging	K Burr, J Mejia
32	AI and SPC Team Up in Process Control	M Dybeck
38	Trimming Control Valve Noise/Cavitation	M Husu
40	Programmable Controllers Protect Everglades Pipeline	R Taylor
44	Pressure Sensing: A Practical Primer	J D Lewis
48	Developing a Storage Tank Level Detector	N R Paranjape
74	OEMs Let CAT Out Of the Bag	R C Waterbury
